

# Performance Dairy Mineral

**Product #DA6002**

**About the Product:**

Performance Dairy Mineral is designed for lactating cow rations as a sole source of vitamin and trace mineral requirements. Performance Dairy Mineral is designed for diets containing high levels of corn silage or grass haylage or hay. This product does not contain salt. Feed at the rate of 1 pound per cow per day.

**Trace minerals highly Fortified:**

Performance Dairy Mineral utilizes chelated trace minerals and organic selenium. Trace minerals such as selenium, copper, zinc, and cobalt are essential for proper nutrient utilization and performance.

**Yeast Culture:**

Performance Dairy Mineral contains Gladiator Yeast to improve gut health and performance.

**High Vitamin A, D and E Fortification:**

Performance Dairy Mineral is formulated for feeding programs where no other vitamin fortification is added. Proper vitamin supplementation results in better utilization of minerals for improved health and performance.

**Quality Ingredients, Balanced Formulation:**

Performance Dairy Mineral helps you achieve excellent animal performance, milk production, conception, and feed efficiency.
